

15 August 1957

MEMORANDUM FOR THE RECORD:

25X1A9a

At 1500, [redacted] of Personnel came in apropos of his telephone call of 6 August 1957 regarding the [redacted] case. He gave 25X1A9a the name of the employee as [redacted] who works in OCR. At present the suit 25X1A9a is going on and [redacted] is obviously the father of the child. [redacted] in 25X1A9a Personnel is acting as general contact point for CIA in the affair. The main added information at the moment was that the girl's lawyer has asked the Agency, 25X1A9a through [redacted] to supply a letter guaranteeing that [redacted] will not be ordered 25X1A9a out of the country until after the birth of the child. The boy's lawyer (asked him the name but he could not remember it) objected to this because he thinks he can get a better settlement without making such commitments. We therefore turned it down on the grounds that we cannot divulge such matters as plans and 25X1A9a personnel assignments. Her lawyer then threatened to take the matter up directly with the DCI. [redacted] seemed to think that such a letter might come here and wanted us to be prepared for it.
